BALOCHISTAN UNIVERSITY OF ENGINEERING AND TECHNOLOGY, KHUZDAR

BILL OF QUANTITIES

SUPPLY & INSTALLATION OF LAB EQUIPMENT FOR BIOMEDICAL ENGINEERING DEPARTMENT AT BUET Khuzdar under BIOMED5.0 Project

S.NO	Equipment	Name	Specifications	Qty.	Unit Price with GST (Rs.)	Total Amount (Rs.)
1	VR Headsets	Meta Quest 3	Meta Quest 3: 512GB Meta Quest 2: 256GB	5.00		
2	FDM Printer	Snapmaker Hybrid printer	Achieve up to 10,0000 mm/s² acceleration and 350 mm/s high print speeds. IDEX capabilities include copy, mirror, and backup mode. 300°C hotend & 100°C heated bed. Print volume 300 × 200 × 200 mm³. Streamlined calibration process. Easy-swap hotend system. Built-in nozzle wipers.			
3	Robotic kit	LYNX Motion Robotic Arm without ROS	It features six degrees of freedom (DOF) and a payload capacity of 500 grams. The arm's control system is based on Arduino Uno and is equipped with a servo motor driver board.	2.00		
4	IoT sensor	Raspberry Pi based IoT kit (5)	-			
5	FDM 3D printer	Creality K1 Max	Build volume of 300x300x300 mm, a maximum print speed of 600 mm/s, and a layer resolution of 0.1 to 0.35 mm. The printer is compatible with 1.75 mm filament (PLA, ABS, PETG,	1.00		

			TPU, and more) and has a hotend temperature of up to 300°C and a bed temperature of up to 110°C.			
6	3D handheld Scanner	Revopoint Mini Dual axis 3D scanner	Up to 0.02mm single frame precision, minimum scan volume 10mm × 10 mm × 10mm working distance 100mm ~ 200mm	1.00		
7	High end computing workstation	PC Gaming system	Core i5 12th Generation 16 GB DDR4 256 GB NVME, 1 TB HDD, Used RTX 3060, Samsung 24" Essential Curved Monitor S3 S36C, Keyboard, Mouse, APC BV650I-MSX Easy UPS 650VA	15.00		
8	5 Axis hybrid CNC mill and 3D printer *	5 Axismaker	400×400×400mm build volume, capable of 5-axis simultaneous machining. It features a 500W brushless spindle with 15,000 RPM and an FDM Bowden-type extruder for 3D printing. The machine is designed for versatility, allowing users to switch between milling and 3D printing with ease.	1.00		
9	CNC Laser Cutter and Engraver	Chinese CNC Laser Machine	600 × 400mm work area, 80 W CO2 laser tube, Material: wood, acrylic, leather and fabric	1.00		
			Total Rs.
